

Second Announcement SIEN 2013

"Nuclear Power A Milestone on the Path of Progress"

Bucharest, Romania

International
Symposium
for Nuclear
Energy

www.sien.ro

10 - 14 November 2013
Ramada Parc Hotel

The International Symposium on Nuclear Energy (SIEN) is a biennial scientific and technical meeting in Romania having already a long tradition.

SIEN 2013 is co-organized by the Romanian Nuclear Energy Association - AREN and the Romanian Atomic Forum - ROMATOM. The objective of the symposium is to debate the challenges and the future of Nuclear Energy in the context of the last well known events in the world.

All the experts and representatives of the main organizations and institutions involved in the development of nuclear projects are invited to attend SIEN 2013. This symposium is also open to research officers and students interested in the issues of Nuclear Energy.

Technical sessions

- Developing the New Nuclear Technologies
- Overcoming Nuclear New Build Project Challenges
- Building on Experience from Global Projects
- Operation, Inspection and Maintenance
- Fuel Cycle, Radioactive Waste, Decommissioning
- Operations and Economics
- Safety and Environment
- Increasing Nuclear Safety Features
- Safety Culture
- Addressing Regulatory Issues
- Public Acceptance and Confidence Strengthening
- Nuclear Legal Issues

Important date:

August 1st, 2013: Abstract Submission - extended

September 1st, 2013: Final Announcement

October 1st, 2013: Reception of full papers

Workshops

- WIN
- Young Generation Network: "Communicating Nuclear Sciences"
- Procurement of goods and services for the nuclear sector

Poster Conference Sections
