ATOMSTROYEXPORT JSC (ASE JSC) is one of the world leading EPC/EPCM companies implementing projects related to construction, modernization and reconstruction of nuclear power facilities.

ASE JSC forms a part of the **State Atomic Energy Corporation ROSATOM** and promotes Russian nuclear technology on the global market. The main activities of **ASE JSC** are related to the management of the construction of state-of-the-art nuclear power plants (**NPPs**) with **VVER**-type light water power reactors of enhanced safety.

At present time **ASE JSC** implements contracts for the construction of **NPPs** in India, Iran and Bulgaria, is preparing to construct new NPP units in China and India, is in talks on the construction of **NPPs** in Armenia, Belarus, Ukraine, Vietnam, Egypt and Turkey, participates in a tender for the construction of **TEMELIN NPP** (units №№ 3 and 4) in the Czech Republic.

Holding one of a leading position in the global market of nuclear power technologies, **ATOMSTROYEXPORT JSC**, using a unique experience accumulated over half a century in the Russian nuclear industry, constructs reliable and safe new generation nuclear power plants in line with international standards and IAEA guidelines.
