JSC TVEL, one of the world leading nuclear fuel manufacturers and suppliers, fully meets fuel needs of 76 power reactors in Russia and 15 countries in Europe and Asia, 30 research reactors, as well as the Russian nuclear-powered fleet . Upon Rosatom's resolution the establishment of Fuel Company within TVEL Corporation is currently underway. The strategic goal is to enhance competitiveness in the global nuclear fuel cycle market and to supply nuclear fuel products and services to the utmost satisfaction of customers in Russia and abroad. At the first stage Fuel Company should integrate gas centrifuge producers, nuclear fuel manufacturers and separation-sublimation facilities.
