

ENC 2012

The European Forum to discuss Nuclear Technology Issues, Opportunities & Challenges

9 -12 December 2012, Manchester, United Kingdom

Call for Papers

The European Nuclear Conference (ENC) is the largest international conference of its kind on the European event calendar. This European Nuclear Society (ENS) event has a multidisciplinary approach, looking at nuclear applications in energy production and medical technologies.

ENS and the ENC 2012 Programme Committee are now calling for abstracts in the following areas:

- **Reactor technologies**
- **The fuel cycle**
- **Plant operations**
- **New Build**
- **End of Use management**
- **Life science applications**
- **Non-power industrial applications**
- **Education, training and knowledge management**
- **Nuclear in the civil society**

Upload your abstracts before 31 May 2012
on www.enc-2012.org
or contact enc2012@euronuclear.org for further information
