- More than 2000 lectures with more than 75 000 lecturers since March 2000 in Czech Republic
- Austria: 25 lectures/ 1345 lecturers
- Bavorsko 124 lectures/ 851 lecturers
- Partnership with the JLM Praha Agency in discussions organizing
- South Bohemian Dads share is about 900 lectures
  
- The aim is not to convince but to give correct information

## Acquired experience

- Low level of knowledge in the field of energetics and nuclear energy
- Extremism of nuclear opponents
- Phenomenon of RADIOACTIVITY
- Explanation, giving understandable information and rationalisation of the nuclear energy is „neverending story“

## Phenomenom of radioactivity

## Experience with discussions in Austria

- **At the beginning**
  - Very emotiv
  - Compulsory participation of the nuclear opponent
  - Difficult deals with schools
- **Today**
  - Receding emotion
  - Opponent is not invited
  - The schools are inviting us themselves
- **Future**
  - depends on the Austrian policy

# Temelin NPP – good or bad?

## We will continue with the lectures and discussions

Even despite of the ends of the discussions like that...

**Thank you for your attention!**
