

**The Preliminary Programme is now on-line!  
Registration FROM TODAY!**

<http://www.topfuel2006.org>

TopFuel 2006 will focus on the importance of nuclear fuel developments in the light of the current revival of the debate on nuclear energy.

This topical conference provides a unique opportunity for all professionals in the nuclear fuel industry to meet face to face, exchange expertise, and discuss state-of-the-art issues.

The preliminary programme covers the following issues :

- o Security of Supply
- o High Burnup
- o Fuel Manufacturing
- o Methods and Models
- o Fuel Performance
- o Fuel Cycle Strategies and Core Management
- o Spent Fuel Management
- o LOCA & RIA Issues
- o Advance in Fuel Design

***TopFuel 2006 will take place from 22 to 26 October in Salamanca, Spain***
