EXHIBITION TERMS & GENERAL CONDITIONS

1 Allocation of Space

- The organisers will notify the exhibitor within 7 days of receipt of an application for exhibition space whether a space has been reserved and if so provide a booking reference code which must be used in subsequent correspondence.
- If for any reason the exhibitor is not allocated a space then monies accompanying the application will be returned in full.
- The organisers reserve the right to alter the allocated stand position if deemed necessary in order to provide a viable layout.
- The organisers reserve the right to refuse any application for space without giving any reason for such rejection.
- If, following the placing and acceptance of a booking and within six weeks of the exhibition date (including taking bookings within this six week period), the exhibitor gives notice that he/she no longer wishes to attend, then the organisers reserve the right to refuse a refund. If cancellation occurs more than six weeks before the exhibition date then the organisers may, at their discretion, return 50% of the booking fee.
- All details required to attend the exhibition must be provided with the application form and the organiser must be notified of any subsequent changes no later than 4 weeks prior to the event.

2 Payment for Exhibition Space

- Unless stated otherwise on the booking form provided by the organisers, the charges for exhibition space do not include any stand, fittings or furniture. Where possible the organisers may try, at their discretion, to ensure that the exhibitor has access to normal furniture such as tables and chairs if they are needed, but this cannot be guaranteed and exhibitors are therefore advised to provide all such fittings and embellishments needed for their space, including lifting equipment.
- All application forms are offered, and bookings accepted solely on a "payment with booking" basis. The organisers reserve the right to refuse any application that does not comply with this rule.

3 Duration of the Exhibition

- The date and opening hours of exhibition will be stated in the brochure.
- In placing an order, the exhibitor agrees to prepare and have his/her stand available the previous afternoon (or at another time if agreed in advance with the organisers) and will not begin dismantling the stand until the exhibition closing time has passed.

4 Fire & Safety

- Materials used by the exhibitor in the construction and finishing of his/her stand and exhibits, or during demonstrations or dismantling must not present a fire hazard to the exhibitor, other exhibitors, the host site or the public and should be made from fire retardant materials. The use of compressed gas or other explosive or highly flammable substances requires prior approval from the organisers.
- All exhibitors' equipment must be confined within the floor plan boundary of the stand space booked and must not offer a hazard to persons attending the exhibition or other exhibitors in any way. Passageways, stairways and fire exits shall be kept free of obstructions at all times. Gangways must be no less than two metres wide.
- Exhibitors and their staff must conform to the accepted safety standards of the day. Equipment must conform to the relevant legislation, regulations, British or EC standards, etc. as appropriate and maintained and operated in a safe condition. Displays involving equipment which moves shall not be left unsupervised. OE II Centre may require information on all displays involving moving equipment.
- Exhibitors are responsible for ensuring they are familiar with the OE II Centre fire evacuation procedures.
- We operate a NO SMOKING policy within the exhibition area.

5 Preparation and Removal of Stands

- The exhibitor is required to notify the organiser at least six weeks before the exhibition if the exhibitors intended display or equipment breaches any of the following guidelines: Stands will be no higher than 2.5 metres (unless otherwise stated) Equipment will have a floor loading footprint no greater than that of a person weighing 220lbs Electrical requirements will not exceed that capable of being provided by one 13 amp three pin socket outlet If there is a need to operate portable equipment, such as pumps or compressors which require a higher than normal current, exhibitors are required to inform the organisers when booking space. Once exhibitors have off-loaded their equipment, vehicles must be moved.
- The exhibitor will remove all packaging, display materials and any other additional presentation equipment immediately after the close of the exhibition.
- The organisers will not be responsible for the delivery, storage or transport of exhibitor's equipment. Nu-Tech takes no responsibility for accepting or security of such deliveries.

6 Damage to the Exhibition Venue

- The exhibitor must avoid causing damage to the structure and finishes around and in the exhibition hall and must provide such evidence, as is required by the organiser, that appropriate and adequate insurance cover is in existence to cover any claims arising from such damage.

7 Limit of Liability

- All equipment and articles exhibited are at the sole risk, and are the sole responsibility, of the exhibitor. All exhibitors must provide their own insurance cover for fire, theft, damage or loss, including Public Liability: as the organisers and the OE II Centre cannot be held responsible for accidents to exhibitors, exhibits or attendees.
- The organisers and OE II shall not be held responsible for the loss or damage to or the safety of any property or of any injury to the exhibitor or his/her agents or servants under any circumstances whatsoever by reason of fire, water, theft, accident and any other cause including erection, maintenance and dismantling of stands and equipment or otherwise the negligence of or breach of statutory duty by the organiser, their agents or servants.
- Failure to comply with these terms and conditions will result in the withdrawal of permission to exhibit.

EXHIBITION PROGRAMME

*ENS
TopNEX 2006*

ENS TOPICAL MEETING
ON NEW REACTOR SYSTEMS

Securing the Future – the role of Nuclear Energy

Queen Elizabeth II Centre
Westminster, London, UK
Conference Exhibition
Benjamin Britten Lounge
21-23 March 2006

Supported by:

>> Background

The TopNux 2006 international meeting will be a highly prestigious event attended by energy industry leading players and interested politicians from around the world. To complement this, the organisers have secured many high-status speakers including CEO's from several of the leading energy companies as well as senior ministers, industrialists, academics and leaders of global businesses from countries such as Canada, China, Finland, France, Japan, Sweden, USA etc.

The Conference will provide a rare opportunity to listen and meet a diverse range of decision-makers and influential individuals associated with the future prospects for nuclear power.

An exhibition will run in parallel with the TopNux 2006 Conference during which potential and existing suppliers to the nuclear industry can demonstrate their abilities to a varied delegate audience.

This event represents one of the most significant opportunities in the Nuclear Industry calendar to raise awareness of profile products and services to a highly targeted and defined audience of

specialists involved in the implementation and development of supply chain opportunities and/or policy making.

Situated in the Benjamin Britten Lounge of the Queen Elizabeth II Centre, Westminster, London, the TopNux 2006 exhibition will have easy access to delegates based in the adjacent Fleming Room conference facilities. Prices quoted cover the three-day period of the conference, including lunch and other light refreshments during that time. As with all our events, lunch and other refreshments will be located within the exhibition area for the benefit of both delegates and exhibitors alike.

The cost of exhibiting does not include admittance to the conference presentation sessions but does offer a discounted delegate fee of £745 plus VAT per ticket

to enable a maximum of two representatives per exhibition stand company to participate in the full itinerary of conference sessions. Also included in the discounted delegate fee is attendance at the evening dinner in the spectacular surroundings of the Science Museum.

>> Exhibition Rates

Ref:	A	B	C	D	E
Size (metres)	3 x 1.5	3 x 3 x 1 corner	3 x 2	4 x 1.5	4 x 2
Space only	£1350	£1590	£1600	£1600	£1850
Shell size	3 x 1	3 x 3 x 1 corner	3 x 2	4 x 1	4 x 2
With shell	£1500	£1775	£1775	£1765	£2035

All the above prices plus VAT.

Shell stands are covered in a royal blue fabric suitable for the Velcro fastening of posters and lightweight panels. Included in the cost of a shell stand is a company nameboard, two spotlights and 1 x 3 pin socket.

>> Sponsorship Opportunities

Since the Conference will also be promoted to a large audience all over the world and across the nuclear community through advertising, new articles, the internet and direct mail, there are additional opportunities for suppliers and organisations to benefit from having an enhanced profile through the participation of event sponsorship.

There are several key sponsorship opportunities both in support of the event as a whole and also in relation to individual elements of the conference and social programme. Priority in allocating sponsorship packages will be given to suppliers and organisations depending upon the level of sponsorship and on a first come, first served basis.

For further information about sponsorship packages, please contact Exhibition Organisers.
