

Application Form for ENS Sponsorships

ENS Support:

By granting its sponsorship ENS endorses the meeting. It provides extra help by announcing the event well in advance and by publishing calls for contributions and information. More specifically, ENS offers the following:

- prior notice of the event on the ENS website, together with a link to the conference website
- free entry in ENS' conference listing and the handling of resulting requests for information
- publication in the Society's magazine, *ENS NEWS*, of Calls for Papers and other information

In exceptional cases, and following a specific request, ENS and its Member Societies can support the organisation of an event by making its expertise available to conference committees.

ENS sponsorship of an event should be flagged in all announcements and documents relating to the event and include the message: 'in association with the European Nuclear Society'.

In exchange for providing the above support, ENS requests that:

- the "membership" conference registration fee must apply to all members of ENS Member Societies and Corporate Members.
- a copy of the conference transactions or proceedings be sent to the ENS Secretariat

1. Title of the conference:

Scope of the meeting/objective:

.....

.....

.....

Titles of technical sessions:

.....

.....
