

Suppliers Seminars and Country Seminars

Exhibitors who have ordered a stand space of 50 m² plus are given the opportunity to organize Suppliers Seminars of their own. These will be half-day events from Monday afternoon through Wednesday afternoon and usually cover specific aspects of the exhibitors' fields of operation.

At the last ENC in 1998, for instance, Cogema ran seminars on topical fuel cycle matters, Ansaldo on aspects of procedures management, EDF on nuclear and the environment, Excel Services Corp. on improving facility operations, Siemens (now known as Framatome-ANP) on its contribution to life extension in the area of NSSS, BOP, I&C and fuel and the Nuclear Society of Russia on the use of nuclear energy in Russia.

All of these exhibitors reported satisfaction with the result of their event, which had shown participant the extent of the expertise of their companies and enabled fruitful contacts with existing and potential clients.

Conference rooms available

- a) Seating capacity of 80 persons (= without projection);
65 persons with video-projection
- or
- b) Seating capacity of 160 persons (=without projection);
