

## ENC 2002 SCIENTIFIC SEMINARS LILLE, FRANCE, OCTOBER 7 - 9, 2002

### Your paper submission

Dear Contributors

You recently received individual e-mails, confirming date & session allocation of your contributed papers. Should you not yet have received your e-mail by July 31, please contact [enc2002@to.aey.ch](mailto:enc2002@to.aey.ch).

We kindly request to have a **DIGITAL ONLY** copy of your **final paper** in our hands by **September 5, 2002**, to be able to include it in the Transactions which will be published on CD-ROM and be available from the registration desk at the beginning of the Scientific Seminars. There will be no printed proceedings of these Scientific Seminars. Please note that the standard length of your paper is limited to 5 (five) pages. For the authors' convenience, all popular word processor formats are supported.

We ask you to e-mail your final paper to [enc02scientific@to.aey.ch](mailto:enc02scientific@to.aey.ch) for the attention of the ENC 2002 Conference Secretariat, where the production of the CD-ROM will be coordinated. Alternatively (and especially, if you have data transmission restrictions) you can supply the paper on CD-ROM to the following delivery address:

European Nuclear Society  
ENC 2002 Conference Secretariat  
Belpstrasse 23  
P.O. Box 5032  
CH-3001 Berne  
Switzerland

If you are sending your paper by e-mail to the Conference Secretariat, please copy me in:  
[cesar@dse.upm.es](mailto:cesar@dse.upm.es)

You should carefully read the enclosed Instructions for Authors before completing your manuscript. Your paper will be published as received — no further editing efforts will be made to it. That is why authors should strictly adhere to the standard layout, as proposed in the instructions.

The time allocation for all oral presentations is 15 minutes plus 5 minutes for discussion at the end of your presentation. In preparing your presentation, please plan to strictly observe these limits. In order to allow your session chairperson to properly introduce you as a speaker and for inclusion on the CD-ROM, please also send us a short (150 words) Curriculum Vitae together with your final paper.

The standard visual aids available to you as a speaker are DLP projection facilities and overhead projectors. In order to help us to coordinate the required equipment, please complete the enclosed answer form and send it to the conference secretariat together with your final paper.

Thank you very much for contributing to ENC 2002. We are looking forward to meeting you soon in Lille and are sure that ENC 2002 will be a very successful event.

Very best regards,

European Nuclear Society  
ENC 2002 European Nuclear Congress

César Queral  
General Coordinator Scientific Seminars
